About Us

Willie Care Home started as a simple care home with few services for elderly individuals in 2003. The years rolled by and we have grown into two homes offering various assistance to our residents. We offer caring and healthy assisted living alternatives for only 6 residents with 3 caregivers who are trained in both emotional and physical needs of our residents. Our home has been named as a Top Care Home by Care Provider USA and visited by RN regularly. Our caring solutions have established a notable reputation in our area.

In just a few years, our homes have gained total respect from the community, especially our caregiving staff. Their extensive experience and earnest treatment to every resident has won them numerous friendships. Trust has been gained and we're going to keep it that way.

Our care homes are licensed by the State of California. Our training and support to our employees have made us remarkable in upgrading their skills. Whenever a need exists, we are assured that our clients receive quality care.
